Profile Summary

Java developer with a strong foundation in Data Structures & Algorithms, OOPs, and DBMS. Built backend applications using Spring Boot, REST APIs, Spring Security, and MySQL through academic and personal projects. Eager to learn, solve complex problems, and contribute to building high-quality software..

Education

B. Tech – Computer Science Engineering (Data Science), Maharana Pratap Engineering College, Kanpur, UP | AKTU
Sep 2022 – 2026 | CGPA: 8.5/10

Intermediate (UP Board) – Mohan Vidya Mandir Inter College, Kanpur | 2021

High School (UP Board) – Mohan Vidya Mandir Inter College, Kanpur | 2019

Technical Skills

- **Programming Languages:** Java, C++, JavaScript
- **Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems
- **Backend Development:** Spring Boot, Spring Security, Hibernate/JPA, REST APIs
- **Frontend Development:** React.js, HTML, CSS, Tailwind CSS
- **Databases:** MySQL, MongoDB
- **Tools & Practices:** Git, GitHub, Maven, Postman
- **Development Methodologies:** Agile Development, Unit Testing, Debugging, Code Reviews

Projects

1. Prescription & Medical Record Verification System

Tech: Java, Spring Boot, Spring Security, JWT, MySQL, Hibernate/JPA, REST APIs, Maven, React.js

- Built a prescription verification system to ensure prescription authenticity and reduce tampering or misuse in healthcare workflows.
- Developed **REST APIs** using Spring Boot for managing users, prescriptions, and medical records in a scalable manner.
- Implemented **JWT** authentication and role-based access control for doctors, patients, and pharmacists to secure sensitive healthcare data.
- Used **MySQL** with Spring data **JPA and Hibernate** for efficient storage, retrieval, and management of medical records.
- Integrated **Spring Security** with password encryption to build a secure backend application.
- GitHub: github.com/sonivipin119/RxShield

2. Home Reservation System

Tech: Java, Spring Boot, Spring Security, MySQL, Hibernate/JPA, React.js, REST APIs

- Developed a home reservation platform supporting 100+ property listings and 500+ bookings per month.
- Implemented search and filter functionality, reducing average user search time by approximately 30%.
- Integrated **Spring Security** with **role-based access control**, securing APIs for users and hosts while ensuring protected access to application resources.
- Used **MySQL** with **Hibernate/JPA** to manage booking and property data, optimizing database operations and improving response time by nearly 35%.
- Designed and **deployed** a production-ready application architecture, ensuring 99.9% availability.
- GitHub: github.com/sonivipin119/HomieeBook | Live: homiee-book-9a2u.vercel.app/

Certificates

- Data structure & algorithm – Infosys Springboard (2025) <https://drive.google.com/DSAg>
- Java – Online Vocational Training (IIT Kanpur / UPRVUNL, 2024) https://drive.google.com/JAVA_IIT
- AWS – Infosys Springboard (2024) <https://drive.google.com/AWSusp=sharing>
- Python Crash Course – Google/Coursera (2023) <https://drive.google.com/Python>

Achievements

- Runner-up in the MPGI Hackathon (2023).
- Solved 400+ Data Structures & Algorithms problems on Leetcode, improving efficiency of solutions by up to 50%.
- Open-Source Contributor – GSSOC 2024.
- Won a medal in the 200-meter race at APEX MPGI.
